

Additional Transition Resources

A supplement to the Transition IEP trainings and webinar, Fall 2017

Transition Assessment Matrix: Online matrix of a variety of age appropriate transition assessments. Created by teachers, allows you to put in the variables of what you are looking for. All of the Authentic Assessments are found on this site. They are identified by AA at the beginning of them. <https://instrc.indiana.edu/transition-resources/transition-matrix.html>

Virginia Career View: This is an excellent site filled with transition related activities and resources for upper elementary and middle school students. You can find everything from getting to know your students, to a site that lists all the 'unusual' jobs our young students sometimes want to pursue. Check it out, you will get addicted to this site! <http://www.vaview.vt.edu/>

Certificate of Completion: This is the Indiana DOE website housing all of the information coming out about the Certificate of Completion. You will want to check it often as they are regularly putting on new resources for teachers and guidance staff. <https://www.doe.in.gov/student-services/student-assistance/coc>

General Education Transition Service and Activity Survey: This is a survey you can use (or tweak) and give to your general education teachers to see what transition related activities are already taking place in the general education classrooms. Remember, you want to supplement, not supplant what is naturally occurring! <https://instrc.indiana.edu/pdf/General%20Education%20Survey.pdf>

Transition Compliance Series: This 9 week series was developed by the Indiana Secondary Transition Resource Center (instrc.indiana.edu) as part of the *Tuesday's Transition Tips for Teacher* (you can find more information on the website). Each week INSTRC featured one question from the Indiana Transition Requirements Checklist and provide an explanation and example of what is required to meet compliance. The series is designed to support teacher and district efforts in understanding the expectations for a Transition IEP. <https://instrc.indiana.edu/pdf/resources/Transition%20IEP%20Checklist%20Series.pdf>

2017 The Transition IEP: Ensuring a Quality, Compliant, and Student-Focused Process

*Presented by the **Indiana Secondary Transition Resource Center**, a project of*

INDIANA INSTITUTE ON DISABILITY AND COMMUNITY
**CENTER ON COMMUNITY
LIVING AND CAREERS**
