Summary of Age-Appropriate Transition Assessments

Postsecondary Employment

As one of her transition services and activities this year Josie works at the school coffee cart. She created a Task Analysis of her coffee job (2-20-19). Josie listed the steps she takes to have a successful day at her job. Many of the steps Josie listed included the use of her Dynavox, thus, Josie noted the importance of finding a job that will permit use of her Dynavox. During an interview assessments with her TOR, Josie also pointed out that her favorite part of her job at the coffee cart is when she can place people's orders and get them what they ordered. Based on this task analysis, Josie needs a job where she can use her Dynavox, and she would prefer to work in the service industry. A direct observation assessment on 03/24/2019 showed that Josie has difficulty understanding orders that involve adding extra flavoring, sugar, or cream to coffee orders.

Postsecondary Education and Training

As one of her transition services and activities this year (facilitated by family), Josie observed the Indiana Pacers store clerk throughout the season and completed a Job Shadow Feedback/Reflection (3-15-19). While on the job, Josie noted the main responsibilities of the job aligned with the benefits she gained working at the school coffee cart, taking orders and giving people their desired order. Additionally, Josie recorded six things she liked about the job and only one thing that she liked the least. After this experience, Josie wants to learn how to work as a store clerk at the Indiana Pacers Team Store by gaining skills through on-the-job training.

Postsecondary Independent Living Skills

On the Adolescent Autonomy Checklist (3-20-19), Josie indicates that she needs ongoing support to conduct independent living skills such as doing laundry, housekeeping, personal skills, and healthcare skills. Josie requires a nurse to aid in suctioning her trach tube and feeding through her G-tube. Josie enjoys watching Netflix, listening to music, and watching sports games with her family. An interview with Josie's parents on 03/29/2019 provided information about Josie's

ability to function in the home environment. Her parents indicate that the nursing service provides support with the feeding tube, trach, and changing. Josie does communicate with her parents using the Dynavox. Even though they understand much of what Josie communicates with the Dynavox and non-verbally, they would like for Josie to learn some new words.

Postsecondary Goals

Employment

I will obtain employment in the service industry in a job where I can use my Dynavox, like the Indiana Pacers Team Store.

Education and Training

I will receive training from an adult service provider that offers on-the-job training.

Independent Living Skills

I will receive on-going support from nursing services to help me be as independent as possible in a supported living home.

Transition Services
